Fiber Optic Splice Closures-FOSC

GJS(04) In-line Closure

GJS(04) series are suitable for cables whose diameter ranges 10-23mm, they can be used in aerial, duct, and direct buried application; these products are made of high quality material and with mechanical sealing structure filled with sealing material; the external components and fastening parts are all made of stainless steel; it can be reopened and reused without changing sealing material.

GJS(05) In-line Closure

GJS(05) series provide with 4 fiber cable in-out ports; The products are made of high quality material and with mechanical sealing structure filled with the sealing material, can be used in the harsh weather; The external components and fastening parts are all made of stainless steel; It can be reopened and reused without changing sealing material; It can be used in aerial, duct, and direct buried application.

GJSM Dome Closure

GJS-M series can provide with 3 type: 2 in 2 out, 3 in 3 out, 4 in 4 out. They can satisfy customer's different applications; they can be installed by pole mounted, wall-mounted, aerial. They can be divided into 2 types according to the sealing type: screw tread mechanical and heat shrinkable.
